

(ASSOCIATED PRESS TELEGRAM)
 Little Falls, N. Y., March 30.—
 Jean Gianni, under arrest for the
 murder of Miss Lydia Beecher, the
 young school teacher, who was
 found beaten and stabbed to death
 in the woods near Poland, has con-
 fessed his guilt, according to Dis-
 trict Attorney Farrell Gianni sav-
 in the confession which was made
 Saturday, and disclosed today that
 he had asked Miss Beecher to go
 with him to see his parents in Po-
 land to get her reinstatement in the Po-
 land high school from which she had
 been expelled at the young woman's
 instigation. Before their arrival Miss
 Beecher became frightened, he said,
 and insisted upon returning. Gianni
 declares he then hit her with a
 wrench which he had concealed in his
 pocket and knocked her down. Then
 he beat her, stabbed her several
 times with a knife, dragged her

body into the bushes, went home and
 went to bed.
 The body of the murdered girl
 was today taken by her parents to
 their home in Sennett, where fun-
 eral services will be held tomorrow.
 Before his departure, her father,
 the Rev. A. W. Beecher, visited Gi-
 anni's father to offer him sympathy
 and consolation, and later visited
 Gianni himself in his cell.
 "I cannot believe my son is
 guilty," said the elder Gianni, "but
 if he is I'd rather be in your place
 than mine."
 When the aged clergyman saw
 the son, he grasped both his hands
 and said:
 "This is a sad, sad affair, young
 man."
 Gianni stood silent and expres-
 sionless.
 The evidence against the youth
 was presented to the grand jury
 this afternoon.

WHAT BOOK IS MEANT BY THIS PICTURE?

COUPON NO. 42

Newark Advocate Booklovers' Contest

This
 Author
 My Name
 My Address
 (42) MARCH 30, 1914. (42)

Clip out your coupons neatly, and fill them out clearly and plainly, remembering that in the event of a tie for any prize between two or more contestants, neatness and clear writing will win the judges' favor. The picture is to be a part of the coupon. Do not detach the coupon from the picture.

Send no answers whatever to the Advocate until the contest is ended by the publication of Picture No. 70. Any answers received before that time will be destroyed and will not be counted. Read the rules carefully.

Rules of the Booklovers' Contest.

Any person may compete in this contest who lives either in Licking, Delaware, Knox, Coshocton, Muskingum, Perry, Fairfield or Franklin counties, Ohio, except employees of the Advocate or members of their families.

Answers to the picture must be written upon the coupon blank which will be printed every day with each picture during the seventy publication days the contest will last. Both picture and blank must be clipped from the paper, and the blank properly filled in with the name of book and the author's name together with the name and address of the contestant written clearly and plainly in the space provided. Not more than one person's name may be written on any coupon.

Each picture will represent the title of only one book, but there may be some pictures that suggest the title of several books. For the benefit of contestants, and to allow for this variety of solution, any contestant may give as many as five answers to any picture, at will; but not more than one solution may be written on any coupon. If the contestant gives two answers as likely to include the correct one, two coupons must be used; if three answers, three coupons, and so on.

In each instance, whether the contestant gives one answer or five answers to any picture, both the pictures and coupon must be used for each of the answers; and not more than five answers to any picture will be permitted.

If any one of the five answers that may be given to any picture is correct, the contestant will be credited for the correct solution and will not have the incorrect ones counted against his or her chances.

Prizes will be awarded to every contestant, by the Contest Judges who sends in the largest number of correct answers upon the smallest number of coupons. Thus, if a contestant gives the correct answers to 70 of the pictures and uses only 70 coupons, that contestant will rate higher in the prize awards than one who uses 140 coupons or any higher number up to 350 for supplying the 70 correct answers.

If two or more persons, supplying the same number of correct answers, have used the same number of coupons for their answers, the highest rating will be given to the one whose answers are most neatly prepared, in the opinion of the judges.

No contestant will be allowed to submit more than one set of answers, which must include not less than 70 or more than 350 coupons, with accompanying pictures.

Positively no solution may be sent in to the Contest Editor until every one of the seventy pictures has been printed. Answers in complete sets, as just specified above, will then be received in this office, and should be addressed to "Contest Editor," Advocate, Newark, Ohio. The awards will be made strictly according to the correctness of each set of answers, and the correctness shall be determined by the Finding List, the catalogue issued by us as govern-

Be a Live Wire and Don't Get Stepped On; Dead Ones Make Doormats

"Be a live wire and you won't get stepped on. Only dead ones are used for doormats."

This advice has been given in The Caxton and is intended to apply to every man in Newark. It would be a good thing to take the advice, and heed the accompanying caution.

What this city needs now is LIVE WIRES in connection with the campaign being conducted by the Newark Board of Trade for the industrial development of the city. There must be conductors for any energy in its application. The energy is supplied in the plan adopted by the Board of Trade TO ADVANCE THE GENERAL PROSPERITY OF THE CITY BY SECURING THE LOCATION OF NEW INDUSTRIES.

To supply the means for accomplishing this, money must be raised to be used for this purpose only, and the campaign now on is to do this. The city has been divided into precinct districts to be canvassed by personal workers appointed as committees by the executive committee of the Board.

What you will be asked to contribute will be a very small proportion of that wealth that has been to a great extent created or fostered and increased by the prosperous conditions brought about by an industrial growth due to development of factories and the location of new ones, through efforts of the Board of Trade, which for many years has been a continuous factor in Newark's growth.

Upon any principle you may want to apply, it is your duty to contribute your share toward the end in view. Further it is the desire of the members of the executive com-

mittee, and their confident hope that you evince a spirit of cheerful cooperation, combined with a willingness to hustle for the success of the effort in whatever position you may find yourself placed.

Talk with your friends and neighbors about the plan and its object, as it should apply to them. Discuss the matter with any with whom you come in contact. Let every one perceive your enthusiasm in the movement, and it will go far toward influencing those whom you meet to go and do likewise.

THE EXECUTIVE COMMITTEE DOES NOT FEAR BUT URGES A DISCUSSION OF THE DETAILS OF THE PLAN AMONG ALL CITIZENS, WITH A CONFIDENCE THAT THE CONCLUSION WILL ULTIMATELY AND INEVITABLY BE A UNANIMOUS VERDICT OF APPROVAL, AND A UNITED HEARTY AND EFFECTIVE SUPPORT.

Meet the committee that calls upon you with an open mind and hand. Get into touch with the directors of the Board of Trade, the members of the executive committee and the secretary of the Board either by a personal call at his office on the tenth floor of the Trust Building or by telephone. Become a member yourself, get better acquainted with your fellow members, and get the benefit of an interchange of ideas as to best methods to forward the great interests of the city.

BECOME IMBUED WITH THE GENERAL IDEA OF CONCENTRATING ENERGY ON THIS ONE THING AND NOT DISSIPATING IT UPON MANY AND NOTE THE RESULT THAT COMES ALMOST UNANIMOUSLY.

YOU WILL BE A LIVE WIRE.

OHIO MINES TO CLOSE TUESDAY SAYS OPERATOR

"Legislation has made it impossible to operate Ohio mines," said Wayne Collier of the Pan American Coal Company, Monday morning before going to Zanesville. "The mines will close Tuesday night and I predict that it will be 60 to 90 days before any of them are reopened."

Mr. Collier stated that miners had posted notices at various Ohio mining centers, expressing their willingness to continue work but when pressed for an agreement, their demands were impossible. They ask for an increase in the basis of operation.

"It is apparent," said Mr. Collier, "that the miners are seeking public sympathy by their offer to continue work on conditions which they knew the mine operators would not accept."

The Dixie Coal company's mine, located at Dixie, O., a short distance north of Shawnee, is expected to be included in the shut-down dated to begin April 1, with expiration of the old wage scale contract.

Manager George Upson said Monday the company has prepared for the condition by storing a supply that will take care of all demands during the summer. This company employs 125 men on the average payroll, but throughout the Shawnee district it is said several thousand men will be affected by the strike. It is impossible to estimate the actual number in the district for the reason, it is asserted, that weather conditions have been so variable this season that the list of working miners is widely varied in numbers from time to time.

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

HONOR ROLL HAS MENTION FOR SIX DIVISION HEROES

Heroes and life-savers turn up every few days as a matter of course in the railroad business. Six persons on the Newark division are mentioned in the current issue of the B. and O. employees' magazine, and commended in the "Honor Roll" for thoughtful deeds of "safety first."

John Duffy, helper engineer, is commended for stopping No. 104 and notifying the engineer of that train of his discovery of a huge rock on the track in Barnegateville hill, Charles H. Haughn, switchtender in the Columbus yards, prevented a collision between a B. and O. train and one on the N. and W. in the Columbus yards.

Brakeman J. W. Plunt's eye to safety first when as a boy he was responsible for saving a train from running onto a rock slide in West Virginia, and now he's setting credit for it.

Brakeman R. E. Clark reported a broken rail near Quaker City and saved a train. Engineer O. G. White did a similar timely act when he found a tree leaning over the track near Benwood. A young man named Frank Mossholder, near Station, undoubtedly gave valuable service and probably saved lives when he reported a broken rail on the track just after train No. 12 had passed. He was rewarded by the B. and O. management.

One of the bigger prizes in the Advocate's Booklovers' Contest is this splendid \$50.00 Favorite Steel Range at the Wm. F. Miller Hardware Co. store at 23 West Main street. Every body knows the splendid quality of the Favorite stoves, their beauty, fine appearance and wonderful qualifications are the result of over sixty years of stove making.

Every one would be delighted to have this handsome Favorite steel range come into their home, and your chance is equal to any in this big Booklovers' Contest. See this stove at the Wm. F. Miller Hardware Co. They will be glad to demonstrate its merits to you and also show you all the new things in hardware for spring.

CONVENTION OF OHIO BAPTISTS AT GRANVILLE

Ministers to Hold Three Days' Conference and Many Will Attend From Over the State.

(Special to the Advocate.) Granville, March 30.—Beginning Monday the Ohio Baptist Ministers' conference will open here and continue sessions for three days. The general subject for the meetings is, "The Pastor and the Men."

Conventions of the Baptists have been held annually in Granville for a number of years during the early spring. Delegates will attend from all over the state. Cincinnati, Cleveland, Dayton and Columbus will all be well represented. Indications are that there will be 150 or 200 delegates in session by Tuesday morning.

Arrangements have been made to hold the meetings in Cleveland hall, one of the buildings of Denison university. In the evening, sessions will take place in the Baptist church. Each day of the convention, delegates will attend the regular chapel exercises of Denison.

Charles Sumner Brown of Cincinnati is president of the organization and will likely have charge of the meetings.

Delegates will convene Tuesday afternoon at 2 o'clock. An address of welcome will be given by President Clark W. Chamberlain of Denison. In behalf of the ministers Mr. Charles S. Brown will respond. President Chamberlain has been secured to give a scientific illustrated lecture as a special attraction.

Among those scheduled to speak are F. L. Johnson, secretary of the Newark Y. M. C. A.; Charles S. Brown, of Cincinnati; A. S. Carman, of Marietta; J. C. Mascoe, of Dayton; J. F. Hergart, of Cincinnati; W. A. King, of Marion; G. E. Enterline, of Cambridge; J. B. Lemon, of Cleveland; H. A. Vernon, of Norwalk; C. W. Chamberlain, of Granville; C. J. Baldwin, of Boston, Mass.; V. S. Phillips, of Columbus; H. H. Hurley, of Mt. Vernon; T. F. Chambers, of Columbus and T. H. McAfee, of Portsmouth.

DREADNOUGHT WAS THE MECCA FOR BIG CROWD OF VISITORS

(Associated Press Telegram.) New York, March 30.—One of the largest crowds that ever visited the navy yard on Sunday journeyed there yesterday to view the new super dreadnought Texas. It is estimated that nearly 15,000 people entered the navy reservation between noon and 6 p. m. to get a look at the greatest fighting ship in commission.

No visitors were permitted to board the New York, sister ship of the Texas, which is to go into commission a week from Wednesday.

ORDERS OF BOARD OF HEALTH, NEWARK, OHIO:

Relative to Use of "Holler Ditch."

It is hereby ordered by the Board of Health of the City of Newark, Ohio: 1.—That the township ditch which meanders across the southwestern part of said city and is commonly known as the "Holler Ditch" shall be used for surface water drainage only.

2.—That any drain, drainage sewer or sewer, or any branch draining or discharging into it or therefrom shall be used for sanitary drainage purposes, hereof, shall be considered as a part of the said "Holler Ditch" and the same conditions and orders shall apply to each and all as of said ditch.

3.—That the "Holler Ditch" or any ditch, drain or sewer draining or discharging into it or therefrom shall not be used for sanitary drainage purposes, i. e., drainage of or from kitchen, bath, wash bowls, house or building refuse or water closets, etc., except if be the effluent of efficient septic tanks or filtration beds which have been installed in accordance with plans and specifications approved by the Ohio State Board of Health and with the written permission of the Newark Board of Health and maintained in a sanitarily serviceable manner.

4.—That no owner or owners, officers, board or committee of property or building, occupants, agents or employee of same, contractor, plumber or other person or persons shall construct, equip, maintain or cause to be constructed, equipped or maintained any building, construction or equipment contrary to the provisions of this order or violate or assist in violating any of the provisions herein contained.

5.—That any employee of the Board of Health may order cessation of use of drain or sewer, or may order or cause water to be shut off from premises or in building where violations of this order occurs and such order shall be obeyed, and further any employee may enter any building or premises or part thereof for inspection purposes or to carry into effect provisions of this act.

6.—That the Department of Service shall not issue any sewer permits to lay the aforesaid ditch or any drain or sewer discharging into same directly or indirectly, except for the expressed purpose of surface drainage or that it be constructed in conformity to provisions of this order.

7.—That any existing drains, sewers or equipment not complying with the provisions hereof, are declared to be a nuisance and hereby ordered to be abated and shall not be used after July 1st, 1914, until defect is remedied.

8.—(Penalty.) That any violator or violation of this order, or anyone obstructing or interfering with the execution of same, or any person or persons who omit, fail or refuse to comply with this order or orders issued to enforce same shall be dealt with according to law.

9.—That this order shall take effect and be in force from and after the earliest period allowed by law and shall remain in force until such time as the "Holler Ditch" has been converted into a sewer approved by proper legal authority.

Passed March 20, 1914. A. L. RAWLINGS, Pres. Pro Tem. R. F. KNAUSS, Clerk.

Wisdom from Washington

By ARTHUR W. DUNN.

Washington, March 30.—[Special.]—Retaliation by Great Britain is predicted by men who want to have the Panama tolls provision repealed. Congressman Stevens of Minnesota, who was opposed to the free tolls when the Panama canal law was passed, asserts that if there is discrimination in favor of free tolls through the Panama canal for United States ships Canada will retaliate by granting free tolls for Canadian and English ships through the Welland and other waterways passing entirely through Canadian territory to the St. Lawrence river from the great lakes.

"Every acre of land in the northern tier of states will depreciate one-fourth its value," declared Stevens, "and all of the Canadian land would be enhanced by such retaliation."

The Minnesota congressman thinks that the products of Canada would be carried at such a low rate that the United States could not compete with them. He also asserts that it is impossible for the United States to find a waterway from the great lakes to the ocean that could in any way compete with that in Canada.

"A REAL HELPMATE."
Edison.

GUY MAXWELL was the brain of Gilbert Reade's architectural establishment, but he received exceedingly small compensation for his work. Nor did the fact that his employer was his wife's uncle have any effect on his pay check. Marion was a woman of force and initiative, and when she saw how her husband's talents were being taken advantage of by her uncle she concluded that his future chance lay in another direction. So one day when he came home discouraged with his prospects she advised: "Give this place up, Guy. It is foolish for you to slave there any longer. You can make a start for yourself and succeed."

Stimulated by Marion's insistence and wise advice, Guy acted on her suggestion and left Mr. Reade's establishment and went into business independently and made good.

Some three years after his independent beginning he was working feverishly on plans for the new courthouse in order to get them finished within the set time. Marion watched his work intently and was careful that no home disturbances interfered with him. Guy's former employer, Reade, was also interested in winning the courthouse contract, but he found his chances considerably lessened, due to the fact that his assistant did not show the brilliancy or originality of Guy Maxwell. He was further disturbed by the fact that Guy was interested in the competition and he feared for his own plan in contrast with that of his clever young rival.

Five days before the time limit expired, Guy, in investigating some problems of building, fell down an opening in a scaffold and was seriously injured. At home he was bandaged and put to bed but his unfinished plan was the common anxiety of Marion and himself.

Marion was not easily daunted, however, and as soon as opportunity offered she slipped away to the little suite of offices and set to work making the plan and copy of the plan which was to be submitted in the contest.

When Reade heard of the accident he resolved on a desperate bit of deception. Taping his kodak he went to the Maxwell home. He announced that he would wait until Marion returned, when he would tell her of the accident and then he would tell her of the plan. He bade the child hold the sheet up in front of her and he took a picture of the plan. Then he decided he would not wait for Marion and hurried off to his office.

The closing day of the contest the judges met to consider the submitted plans. The third one looked at was Reade's and so exactly suited them that they did not bother to examine any of the others.

Marion and Guy eagerly looked for the newspaper account of the contest. The newspaper where they found Gilbert Reade announced as the winner with the plan of the much in evidence as they were in days gone by, but just now most of them were busy in their offices and homes getting ready for the coming congressional campaign. In many districts the fight is already on for the nominations, and congressmen are looking after their interests.

Jersey Man Expresses Views.
Former Governor Fort of New Jersey was in Washington not long ago and said that he would not be at all surprised to see Theodore Roosevelt head the Republican ticket in 1916. Governor Fort was one of the Roosevelt leaders in New Jersey, and it may be that the wish is father to the prediction.

After Coughing Two Years.
Waycross, Ga., Woman Found Relief in Vinol
Did you ever cough for a week? Then just think how distressing it must be to have a cough hang on for two years.

Mrs. D. A. McGee, Waycross, Ga., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully two years, and felt tired all the time. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way. I am 74 years old."

It is the combined action of the medicinal elements of the cod's liver aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Frank D. Hall, Druggist, Newark, Ohio.

The New System of Taxation
(Cincinnati Enquirer)

It is the right and wise thing to do not to condemn nor to denounce the new system of taxation prior to its results being fully ascertained.

If no individual is wrongfully assessed or an excessive value placed upon his holdings (and the new law does not contemplate either of these) then no injustice has been done such person.

If the aggregate valuations in cities, towns, townships, the counties and the state show large increases in amount without injustice having been done any taxpayer, then the rates of taxation will come down to all that have to carry the burdens of local and state government.

Few, if any, rejoice over taxes they have to pay.

No doubt some who heretofore have failed to realize fully the values of their holdings, or were not subject to taxation, may find the new system objectionable.

The great body of the taxpayers of Ohio were entitled to the relief to them which the new law will bring them through these increases in valuations upon the duplicates by reason of the listing of property that escaped taxation in prior years.

Lower rates of taxation to these and the consequent reduction in the amounts they will pay in the future will justify the new system to thousands of taxpayers in the state.

Most Peculiar Body.
The senate of the United States has always considered itself the "greatest legislative body on earth," and if so it is also the most peculiar legislative body on earth. It spent several days last week in an effort to discover just what it had before it for consideration. It may seem strange that senators would talk hour after hour on the question of whether one bill or another was before the senate, but that is what the senators did. And it all came about over the feeling that senators favoring the grain grading bill had taken advantage of the senators opposing it, and thence began a fight that was practically a filibuster. And all the time there were a great many important measures pending that should have been considered.

Read into the Record.
Congressman Humphrey of Washington has had printed in the Record the names of Democratic senators and Democratic representatives who voted against free tolls in the preceding congress and who are now members of the present congress. The purpose of this is to show how men change their minds when the president wants the free tolls legislation repealed.

Are They Coming Back?
Three former Illinois congressmen of considerable note were in the city last week. There were Uncle Joe Cannon, William B. McKinley, who managed Taft's nomination campaign, and W. W. Wilson of Chicago. Discussing politics in Illinois, it was asserted that all three of these Republicans would be elected this fall in place of the men who supplanted them in the campaign of 1912. It would be rather interesting to see Uncle Joe again in the house. Those who talked with him say that he does not seem to care very much whether he is re-elected or not.

Keeps State Rights Alive.
There is one thing about the negro question—it keeps the idea of state rights alive. It is hard to tell just what would happen to the famous doctrine of state rights and the "reserve power of the people" if it were not for the negro question. Many men in the south would be glad to have the general government take hold of most matters and run them if it did not also involve control of elections. As soon as you get down to the question of election control you find the south almost a unit against federal interference or control. That is all on account of the negro, and that is what makes state rights a live issue, especially when it relates to the voting franchise.

Is Washington Dull?
A visitor to Washington has discovered that the city is dull, that hotels are not thronged with lobbyists, that members of congress are not on exhibition in public places and that many other things are different from former days. It is true that the lobbyists have been somewhat shy since the lobby investigation began, and it may also be true that congressmen are not quite so

Eight Vote Lead With 100 Townships to Hear From

[ASSOCIATED PRESS TELEGRAM.]
Little Rock, Ark., March 30.—Official reports of the county central committees, which will meet today to canvas the vote cast in the Democratic primary election of last Wednesday are awaited to determine whether United States Senator James P. Clark has been renominated or will be succeeded by William F. Kirby, associate justice of the Arkansas Supreme court.

With about 100 small townships missing, the normal vote of which does not exceed 3,000 returns unofficially give Mr. Kirby a lead of eight votes in 131,112 reported.

REMOVE URIC ACID—RHEUMATISM VANISHES

A new remedy has been discovered for the complete removal of Uric Acid from the system, thus bringing about an almost immediate relief from rheumatism. This new preparation is called LAX-URIC and is simply a formula which represents all of the famous healing springs of Carlsbad, Bohemia, etc. It is a pleasant saline laxative and acts on the bowels, kidneys, stomach and liver and in addition to neutralizing the Uric Acid, it brings all the other organs in perfect harmony and the relief is felt almost immediately. LAX-URIC is put up in 25c bottles, and 10c trial samples will be sold for a limited time at Frank D. Hall's. It has been known to cure rheumatism where other remedies fail.

The Silver Lining.

Last summer, when the hot winds blew, and wilted things on every blade, and when the sun, in skies of blue, shone down and blistered all the land, we mortals raised a bitter wail, and cried, "In this there is no sense, for all our cherished crops will fail! Oh, drouth disastrous, get thee hence!" Had any mortal highbrow guys attempted to convince us then that back of all that jeered and jeered again. But now that theory is fulfilled, for we're informed ten thousand score Ben Davis apple-trees were killed, by that fierce drouth, to bear no more. Ben Davis trees are standing dead throughout this glad and fertile land, and we regret the things we said because we did not understand. So, let's be patient after this when trouble dogs us, close behind for sorrow's but a cloak for bliss, and threatening clouds are silver-lined.

The unusual feature in the case of the Kansas woman who recently died laughing was that the joke was on her husband's. A husband seldom is the inspiration of his wife's laughter.

ARCHITECT IS SELECTED FOR NEW BUILDING

The architect who has been selected to draw the plans for the new building for the Home Building association to be erected at the City Drug store corner, West Main and Third streets, is Mr. Louis Sullivan, of Chicago, a man who has a national reputation for building. It is expected that it will be about three months yet before the old building will be torn down.

In about three weeks, Mr. Cary Bricker will move the City Drug store into the store room recently occupied by Ed Doe's clothing store, and in the meantime the store room will be remodeled and a new front put in by Contractor John Garber.

FUND RAISED TO DEFEND AMERICAN ON ARSON CHARGE

(Associated Press Telegram)
New Orleans, March 30.—Dr. Benjamin Leigh, formerly of Jacksonville, Fla., facing charges of arson in Lacedba, Honduras, has enlisted the sympathy of the people who have raised \$1,600 to defend him, according to statements today of passengers arriving on the steamship Rosina. The blaze, it is declared, originated in the drugstore of which Dr. Leigh was manager. Sixteen blocks were swept by fire entailing a loss estimated at \$1,000,000. When the Rosina sailed from Lacedba, passengers said the fund practically had been completed and an attorney had been engaged to defend the American who has been a resident of Honduras for two years.

Mrs. Kate Kammerer Too Ill to Attend Relative's Funeral
Miss Lillian Kammerer of 272 West Church street, was called to Zanesville Saturday by the serious illness of her aunt, Mrs. Philip Hoffman, who died at 6:15 o'clock Sunday evening after a few days' illness of acute indigestion, aged 55 years.

Mrs. Kate Kammerer is ill at her home and will be unable to attend the funeral, which takes place Wednesday afternoon.

Mrs. Hoffman was 55 years of age, and was born in Zanesville. She was possessed of many Christian virtues of character, and had been a lifelong member of the German Evangelical church. She took a keen interest in church affairs, and will be sadly missed in her church and social circles.

There are left to mourn their loss the husband and two brothers and one sister, Fred A. Heibig and William C. Heibig of Zanesville, and Mrs. David Miller of Meadville, Pa.

ORDER OF BEARS WAS INITIATED WITH 65 MEMBERS

A class of sixty-five candidates was initiated into the Fraternal Order of Bears, Newark Lodge, 106, Sunday afternoon in the Reindeer Hall. This order has been in existence about fourteen years.

The following officers were elected for the ensuing year: President, Charles Duer; vice president, James Coon; Junior Past President, Frank E. Stabaugh; Chaplain, Terry McKenna; Treasurer, Russell McCann; Outer Guard, Henry Dehnninger; Inner Guard, James Ramsey; Trustees, Samuel Gallagher, C. T. Eagan, and S. D. Hayes.

The initiation was conducted by a delegation from the Columbus Lodge consisting of twenty members. The organizers were R. M. Sanders and E. A. Huch, both of Columbus. After the initiation a banquet was enjoyed by the members after which a smoker followed.

Grand Trustee D. B. Vanhorn of Cincinnati was present.

CONVICT LABOR TO BE EMPLOYED TO MAKE BRICK

(Associated Press Telegram)
Columbus, March 30.—Governor Cox today approved plans of the state board of administration for leasing a brick plant near Jefferson City, Perry county, at \$4,000 a year for the manufacture of brick to be used for building state roads and new state buildings. Penitentiary convict labor is to be used at the plant.

It is planned by the board of administration to increase the daily output of brick from 30,000 to 100,000, and to add equipment for making paving brick. Only building brick is made there now.

The plans already have been approved by the board and Highway Commissioner James Marker. The lease contract will now be negotiated.

OHIO IS RISING VERY RAPIDLY

(Associated Press Telegram)
Gallipolis, Ohio, March 30.—Heavy rains throughout the upper Ohio valley have started the Ohio river to rising rapidly and the danger line of 25 feet at the mouth of the Great Kanawha, four miles above here, will be passed. While no disastrous flood is expected, farmers in the lowlands will suffer much damage resulting from delay in putting in crops.

Mrs. James McCaslin and Miss Doris Wild of Zanesville will be guests of their sister, Mrs. William F. Wulfoop of Prospect street during this week.

A WOMAN'S HEALTH

Every woman's health is peculiarly dependent upon the condition of her blood. How many women suffer with headache, pain in the back, poor appetite, weak digestion, a constant feeling of weariness, palpitation of the heart, shortness of breath, pallor and nervousness? If you have any of these symptoms, do not despair of getting better but begin now, today, to build up your blood with Dr. Williams' Pink Pills. See how the nervous energy of the body is restored as the blood becomes pure and red and the entire system is strengthened to meet every demand upon it.

Dr. Williams' Pink Pills are useful for all women but they are particularly valuable to girls of school age who show symptoms of going into a decline, who become pale, nervous and languid. These pills aid in securing perfect development and health by strengthening the system and purifying and building up the blood. Thin blood during the growing years of a girl's life means a flat-chested and hollow-backed womanhood. There can be no real health, no true beauty, but red blood which gives brightness to the eyes and color to cheeks and lips.

Write now to Dr. Williams' Medicine Co., Schenectady, N. Y., for two helpful booklets, "Plain Talks to Women" and "Building Up the Blood."

FOUR GUNMEN ARE PRAYING FOR REPRIEVE

(Associated Press Telegram)
New York, March 30.—H. Lionel Kringle, of counsel for the four gunmen who were found guilty of the murder of Herman Rosenthal the gambler, left New York for Albany today with the petition asking Governor Glynn to stay the execution of the death sentence, set for April 13, until after the second trial of Charles Becker, the former police lieutenant whose conviction was set aside by the court of appeals.

The petition is signed by ten of the twelve jurors who convicted the gunmen, and contains in addition documentary matter and a prayer signed by the gunmen, Dago Frank Cirofici, Lefty Louis Rosenberg, Gyp the Blood Horowitz and Whitey Lewis Seidenshner, on which they request, first that the death sentence may be changed to a term of imprisonment and second that reprieves be granted "until after the final determination of the indictment against Becker."

LARGE AUDIENCES GREET NEW PASTOR OF BAPTIST CHURCH

Two large audiences attended services Sunday at the Fifth Street Baptist church and heard two excellent sermons by the new pastor, Rev. C. H. Stull, who occupied the pulpit morning and evening. The

REV. C. H. STULL, Ph. D.

new minister formerly preached at Troy, Ohio, and was recently given a flattering call to the Newark church.

Mr. Stull before and after both services met many of the members of the congregation and made a most favorable impression from a social standpoint as well as a pulpit speaker, and the church feels that the work will now go forward under his regular pastorate.

Feud Has Ended and Rockefeller Gains the Coveted Ground

(Associated Press Telegram)
Malone, N. Y., March 30.—Word has been received here that the celebrated Rockefeller-Lamora feud has been ended by the action of William Lamora in selling the cabin and grounds left him by his father a hunter and trapper who refused to sell his property to make up a portion of William R. Rockefeller's vast Adirondacks game preserve. It was in 1850 that William Rockefeller set out to acquire the game preserve. He bought 19,000 acres around the cabin of Brandon but could not secure Oliver Lamora's cabin and clearing which stood in the way. Out of this arose a legal battle between the oil magnate, agents and the old trapper, which lasted for years.

LITTLE DISCUSSIONS OF LOVE AND MARRIAGE

BY BARBARA BOYD

When Wills Clash.

"I want to go to Europe this summer for our vacation," the Young Married Woman was saying a bit plaintively, "and Tom says right flat, he won't go. Now isn't that mean? And only because he is seasick, too. The idea of giving up a trip to Europe just because you happen to be a little sick. I call it pure selfishness on his part." The Young Married Woman sighed.

Grandmother regarded her in silence a few minutes, a bit of a twinkle in her eye.

"Before you were married, dearie," she finally said, "did you ever stop to think that possibly you and Tom might differ on a few things?"

"No, I don't know that I ever did," admitted the Young Married Woman. "While we were engaged, Tom and I always got along beautifully. I don't think we ever had a single quarrel. Of course, we are not quarrelling now. But I suppose it means I shall have to give up going. And it is downright mean of him."

"But it seems to me," pursued Grandmother, "it would have been well for you to have done a little thinking in the engagement days along this line, possibly have talked the matter over with Tom. You know that you were very much accustomed from a child to having your own way."

"Well, yes," admitted the Young Married Woman. "Father and Mother let me do as I pleased."

"Exactly. And you should have followed, in thought, this course out a bit,—whether it would be right always to do as you please, whether you ought to expect Tom always to let you do as you please, just what would happen if Tom occasionally wanted his way, as it seems he does. You should have faced these new phases of life that awaited you, and thought out the best course to adopt, when they actually confronted you, and not let them come upon you unexpectedly, and, out of the irritation and perplexity of the moment, cause trouble which might have been averted had you pondered the question beforehand and decided upon a course of action."

"I don't see how you could decide, when you wouldn't know what might have to be decided upon."

"Of course, you couldn't decide particular instances. But you could face the fact that you are both young, assertive and accustomed to having your own way. Out of this condition, inevitably, wills, wishes, and dispositions are going to clash. Now what is to be done? Will there be continual quarrels, with resultant wounded feelings and bitterness, to grow into one scarcely knows what? Will each go his own way? Will one always give in and wear a resigned, martyr-like air? What is the best course?"

The Young Married Woman looked eager. "Well, what is it?" she asked.

"That is for each to decide for himself," replied Grandmother. "It is a matter in which few outsiders can interfere. But what I wish you and hundreds of other girls like you would do, is to face the question. In the engagement days it seems impossible that the two of you will ever disagree. But just as sure as that the most of you are young and headstrong, just as sure will there come a time when you will want to pull in different ways. The subject of difference may not be a serious one,—at first,—but the fact of difference is. It reaches much deeper than whether you shall go to Europe this summer or whether you shall stay home. Think down to the underlying significance of it, and then upon a basis of mutual love and compromise, get the great basic question settled."

"I don't believe Tom would go to it that way."

"You be would, if you make him see how fundamentally it would affect the whole future happiness of your married life and the home. Too is reasonable and a thinker. He wants his married life to be happy. Get together in the right spirit on the question and work it out. Don't drift and let circumstances shape your course. Take the helm yourself."

LEAVES

(Continued from Page One.)
made to the house of commons on Friday. In announcing that King George had signed his approval of his assumption of the war portfolio, Premier Asquith concluded: "I have taken the law to the highest authority to obtain their expression and the lawyers agreed that I must resign from the house of commons. I therefore in accordance with the law retire from the house until my constituents shall have given their approval of my acceptance of this office."

In a brief personal statement Col. Seely told the public that there was no difference between himself and his colleagues in the cabinet on point of policy or principle. He said he had pressed his resignation because there appeared although such was not his intention, to have been a bargain with the army officers regarding the service they should render to the crown.

Andrew Bonarlaw, leader of the opposition thought it would be impossible to proceed with the Irish home rule bill in the absence of a premier but Premier Asquith remarked that he would be at hand if advice was wanted and then left the house of commons where Reginald McKenna, the home secretary assumed the leadership.

The resignation of Viscount Morley of Blackburn, as president of the council, is generally expected to follow that of Col. Seely with whom he was associated in drawing up the offending paragraphs of the memorandum to the officers.

NO COMPROMISE VERDICT WANTED IN MURDER CASE

(Associated Press Telegram)
Chicago, March 30.—Final argument by the defense for John B. Koettner, accused of murdering Mrs. Emma Kraft of Cincinnati, began today.

"There can be no compromise in this matter," said the prosecutor in his argument. It must be death or acquittal. This man either killed this old woman, whom he had deceived into loving him, or he did not. There can be no extenuation of the crime if he committed it, and you must send him to the gallows or set him free."

ROB OJO POSTOFFICE.
Saint Clairsville, O., March 30.—The Maynard postoffice safe was blown last night and \$200 in stamps and money was taken by the robbers. This is the fifth time the postoffice has been robbed in three years.

The five robberies have aggregated \$1,200.

COLOR WIGS DISPLAYED IN SHOP WINDOW

Milady's freak of fashion, the colored wig, is in Newark. Samples adorned two lovely heads in a downtown display window, Monday. No, the possessors of those bewigged heads were not live women—merely silent wax figures.

But, back to the wig. Y'know they're just the thing now in polite society in Paris, Wheeling, Mt. Vernon, Newport, and other ports of summer social saloons. If milady feels a bit blue, she harmonizes colors by adopting a blue wig. If she feels envious, or imbibes in creme de menthe or absinthe, she wears a green wig; if bilious, a yellow wig, etc., always with clothes to match. A bald-headed woman wouldn't be supposed to wear—well, there aren't any bald-headed women any more.

God's Standard Is Perfection

Christian Must Develop Character-Likeness to Christ.

CREATED IN IMAGE OF GOD.

The Desire For Harmony With God a Part of Man's Original Perfection. Some Naturally Drawn to God—Faith the First Step—Then Growth in Grace and Knowledge—Lessons in the School of Christ—Justice the Foundation of Character—Love the Superstructure—The Great Test of Character.

March 29.—Pastor Russell preached a very interesting discourse to-day on Holiness. His text was: "As He which hath called you is holy, so be ye holy in all manner of conversation." (1 Peter 1:15.) He said in part:

That our great Creator made man in His own image and likeness, and pronounced His creature very good. But when sin entered the world, through the disobedience of Adam, he was cut off from fellowship with his Creator—as a part of the penalty of sin. This alienation from God must have been one of man's most grievous trials. He must have hungered and thirsted to draw near to God once more, to have the Divine protection, the Divine love; otherwise he could not have been created in the perfect image of God.

But as centuries rolled on Adam's posterity became more and more depraved and demoralized; the original character-likeness to God became blurred, faint, indistinct. So while the desire for God still remains, in some it is more pronounced than in others. In some it is so feeble that they care little for their Creator and are easily satisfied by the pleasures of the world or by the sensualities of life.

Many are separated from God through ignorance, superstition and the doctrines of demons, as the Bible declares. Misunderstanding our gracious Creator, they are thus driven away from Him. Whatever of natural inclination they have had the Adversary seeks to thwart. As St. Paul declares, "The god of this world hath blinded the minds of them that believe not, lest the light of the glorious Gospel of Christ, who is the image of God, should shine unto them" (2 Corinthians 4:4). Should scatter the darkness and should know to them the true character of God; and thus they should be drawn to Him.

But with some of the race desire for God and righteousness has prevailed above the stupefying influence of the world, the flesh and the Devil. This class are drawn by the natural inclination of their minds Godward—desiring to be in harmony with their Creator. While those who were not born of religious parents have had a large experience with sin and alienation from God, others, born in a measure of justification, have had a measure of fellowship with God always, as children of believers. This class are in a favorable condition to be drawn to God, and to hear His voice speaking peace to them and pointing them to Jesus Christ as the Way, the Truth, the Life.

"Lord, Show Us the Father!" As these come to appreciate our Lord's beautiful character and His loyalty to the Father, and to understand that He came into the world to die for Adam's sin, their hearts respond with increasing gratitude to the Redeemer and to the Heavenly Father, whose Plan our Lord was carrying out. More and more do they long to draw closer to God, and to be recognized of Him as members of His family. Through the Word the Master instructs them that whoever will walk in His steps shall eventually see God in the fullness of Heavenly glory.

Still further study of the Scriptures

own. They must not do to others what they would not have others do to them. Because of failure on the part of some to recognize this principle, the way of the Lord is spoken of as being sometimes. If a Christian fails to play his part, or if he is careless as to how he involves himself in debt, it is because this principle of justice does not stand out prominently enough before his mind. As an old creature he has perhaps been in the habit of ignoring the lines of justice and of sliding along as he may be able and leaving others in the lurch. This will not do for the New Creature: for he has come under a set of new rules, and no matter how much the old creature may seek to shirk, the New Creature's duty is to bring the body into subjection and to see that justice rules in every act and word, and so far as possible in every thought.

"They Shall All Be Taught of God."

To whatever extent the principles of justice control our minds, to that extent we have character-likeness to God. The cultivation of these principles in all our actions and dealings, in all our words and thoughts, must be our daily concern. It may be comparatively easy to be just so far as money is concerned, to say, I would pay to the very last penny, and would live on the plainest of food rather than be in debt; but it is not so easy to be thoroughly just in our words and thoughts. The New Creature is to sit in judgment on every word which his mouth may utter. It is no wonder that St. James says that if any man sin not with his tongue the same is a perfect man. The New Creature is to be on guard that he may be developed along this line, and must thoroughly show the Lord that he has no sympathy with injustice.

One must be just in his thoughts before he can be properly just in his dealings. The man who thinks unjustly will act unjustly, in spite of himself; therefore the New Creature must be disciplined even to the control of his thoughts. He must never think of any one except with an unprejudiced mind, a calm judgment, seeking to give others the benefit of the doubt, if there is any doubt whatever. Additionally, he must heed the Lord's counsel that we should exercise great mercy; and that He would rather have us err in the sense of being too lenient than have us be merely just.

But beyond justice comes love, the very highest of God's attributes. God is just; but He is Love, also, which is higher, in the sense that it implies something more than mere justice. Not only will God do full justice to everybody, but He will do a little more—He will do something of love. This He shows us in His dealings with mankind. God was only just when He condemned the race of Adam as unfit for everlasting life; and He would still have been just if He had never provided redemption or any other opportunity for the world whatever.

God is more than just, however, and so in due time He provided the Redeemer. This was Grace, this was Mercy, this was Love. And Love has been working all through His great Plan of the Ages, providing first the Savior, then making provision for the Church, that through His mercy we might come from the ranks of sinners up to the ranks of glory. To accomplish this, He has forgiven the sins of the Church, has encouraged them by assurances of His love and favor all the way and has made all things work together for their good.

"Be Ye Perfect."

This, then, is the Love of God; and the New Creatures in Christ must have this character-likeness to God. We must have love, sympathy, and not merely justice. There is nothing of grace in the giving of justice; anything less than justice is wrong. But the Lord's people must be more than just; they are to be kindly affectioned one to another, tender-hearted, forgiving one another, even as God for Christ's sake has forgiven them. Our Heavenly Father wishes His children to see that quality in His character and to copy it. This is what Jesus meant when He said, "Be ye perfect, even as your Father in Heaven is perfect." We cannot bring our mortal body to that degree of perfection where every act would be perfect, every word perfect, but the mind must be in full sympathy and accord with God and His arrangements, and each must strive to the best of his ability to bring the body into harmony with God.

As the Bible teaches, the Church class are in the School of Christ, being taught of God—His workmanship. By His providence and His Word He has been working in us, by our experiences, which He has shaped for us, and by the opportunities which He gives us. All these things are designed by the Lord to bless us and to develop us in His own character-likeness, so that, as Jesus said, we may be like unto our Father in Heaven, so that we may be holy, even as He is holy—that our intentions, aims, desires, may be of exactly the same kind as His own.

If, therefore, any one who professes to be a New Creature in Christ has in his heart a feeling of bitterness, envy or strife, let him beware! Such a condition of heart is dangerous; it is not of the Holy Spirit at all. Those who have such elements of character are not holy as the Heavenly Father is holy. On the contrary, as the Apostle explains, these qualities of character are works of the flesh and of the Devil, and to whatever extent one possesses these they are the result of the spirit of the flesh and of the Devil at work in the heart.

But if, on the contrary, one has boldness and a fulness of desire to know and to do God's will as an increasing power in his heart, then he is indeed being sanctified of the Holy Spirit of God. The character-likeness of our Father

in Heaven is being impressed upon him. He is more and more coming to see things from God's viewpoint—to see as God sees, to sympathize with the things with which God sympathizes, to be opposed to the things to which God is opposed.

The Grand Climax of Character.

Of our Lord Jesus it was written: "Thou lovest righteousness, and hatest iniquity; therefore God, Thy God, hath anointed Thee with the oil of joy above Thy fellows" (Psalm 45:7)—above the angels, above the Church, making Him to be Head over all things to the Church and decreeing that all the angels shall worship Him. (Hebrews 1:8-9.) In order to copy Him we must see to what extent He loved righteousness and hated iniquity. He so hated wickedness that in every way He avoided injustice, iniquity, unrighteousness, sin; and He so loved righteousness that He preferred to die even the death of the cross rather than to resist the will of God.

This, then, is the great test of character going on with the Lord's people, and according to these lines God is dealing with them. It is not merely that they are fighting the good fight and trying to accomplish something in their flesh; for the New Creature will never succeed in getting as good control of the flesh as he could wish. But what God wishes to see in His people is that their whole hearts are set for righteousness, that they love the right and hate the wrong, and that they are striving to the best of their ability to put down the wrong and to uphold the right, especially in themselves—in their own characters and in their own acts, words and thoughts.

So shall they be the children of the Highest; and when our great Redeemer shall examine them for graduation from the School of Christ, He shall be ready to say to each, "Well done, good and faithful servant; thou hast been faithful over a few things, I will make thee ruler over many things."

"My life flows on in endless song, Above earth's lamentation, I catch the sweet, not far-off hymn, That hails a New Creation. Through all the tumult and the strife, I hear the music ringing; It finds an echo in my soul—How can I keep from singing?"

"I lift mine eyes; the cloud grows thin; I see the blue above it; And day by day this pathway smooths, Since first I learned to love it. The Peace of Christ makes fresh my heart, A fountain ever springing, All things are 'mine since I am his—How can I keep from singing?"

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, they will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, hollow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

TURN HAIR DARK WITH SAGE TEA

Grandma kept her locks dark, glossy and thick with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we won't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover if it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, it prevents dandruff, itching, scaling and falling hair.

DIMINISHES RESISTING POWER.

The first man to make an expedition across Greenland was Doctor Nansen. He and his men had to cross on foot, spending several weeks on floating ice. For 40 days they tramped over frozen snow with 80 degrees of frost. In referring to this journey, Doctor Nansen said:

"The only spirits that we took were as fuel for our stove to melt the snow, that we might have water to drink. I believe the use of stimulants to be a mistake."

Capt. Edward Parry, after 12 years' experience in the Arctic regions, said: "Are ardent spirits necessary? I say decidedly, No. It is said they keep the cold out. I say they do not; they let the cold in."

The whole crew of the vessel that took Commander Peary to the north pole, from commander downward, worked on temperance principles. They could face 60 degrees below zero and all hardships better without alcohol. No wines or intoxicants were taken in connection with their work.

In the words of Sir Benjamin Ward Richardson, the eminent English physician: "You know that alcohol only makes the body feel warm, because it causes more warm blood to come to the surface of the body, there to lose its heat and leave the body colder. You know that cold and alcohol exercise the same kind of influence on the body, and that when working in the cold, even in the extreme cold, that man will work longest and best who avoids alcohol altogether."

NOT IN KANSAS SCHEME.

"It was a hot summer day," says the Emporia (Kan.) Gazette. "It was also dusty. One hundred and fifty men were riding from town to town in Central Kansas, in autos, on a trade extension tour. They were Kansas men—merchants, lawyers, doctors, editors, clerks, mechanics, bankers, farmers. From time to time they stopped at thirteen towns during the day's run. No one in the crowd spoke of beer. No one had any beer. No one at the thirteen towns offered anyone any beer. At most of the towns there were great, deep, stone jars of iced lemonade on the sidewalks with bright tin cups hanging from the jars, and a sign up, 'Welcome, Emporians.' There was no whisky, wine or beer in the crowd. No one missed it. No one spoke of it. For these men, ranging from thirty to sixty years of age, had lived in Kansas thirty years under absolute prohibition. Most of them had never been in a saloon in their home town in their lives. 'Booze' was as remote from their consciousness as carbolic acid. 'Booze' is not in the Kansas scheme of things. No one thinks of it. Its presence or absence is not considered by the Kansas mind."

GOD'S CYCLE OF REFORM.

The seventeenth century brought to mankind spiritual emancipation, the right to think, freedom of worship; the eighteenth century brought political emancipation, democracy, the right to self-government, the rule of the people by the people, for the people; the nineteenth century brought to mankind physical emancipation, the right to self-ownership, of private contract, to engage, to quit and to the fruits of toil; the twentieth century will bring to mankind moral emancipation, freedom from the intoxicating cup as a legalized institution, and the crowning glory of them all, for there can be no true spiritual liberty, no true political liberty, no true personal liberty to an intoxicated man, people or nation.—Clinton N. Howard.

A SAFE PLACE.

A noted citizen of Topeka, Kan., took his small boy, who up to that time had not been outside of the sunflower state, to an elegant hotel in Washington, D. C. When they came full upon the bar doing business, the Kansas boy, with eyes wide with excitement and horror, pulled his father into a corner and whispered: "We've caught them this time, father, caught them selling it right out in sight. I'll stay and watch and you hurry and bring the officers."

When the father explained that liquor selling was not a violation of law at our nation's capital, the astonished child turned sadly away from the beauties of Washington and said: "Let's go home to Kansas."

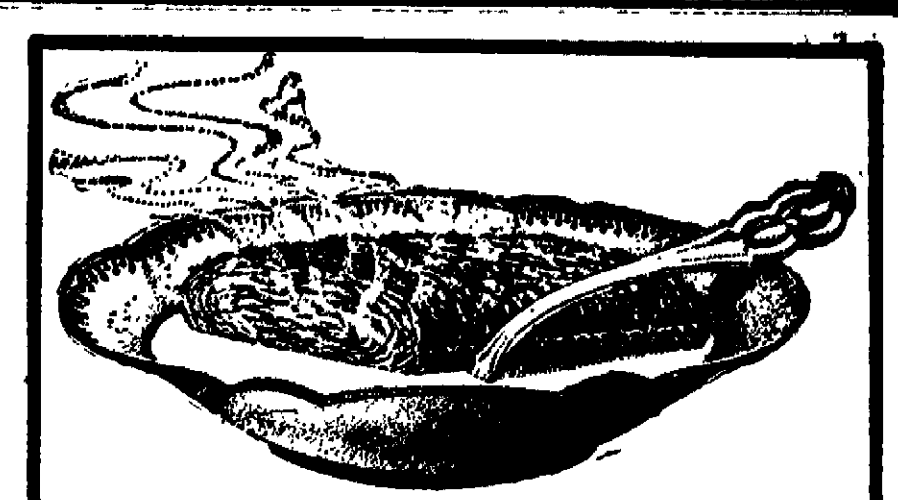

THE WAY THE TRADE SEES IT.

Three men talked together in one of Chicago's big hotels a few days ago. The eldest, about sixty-five years of age, had been in the liquor business since he was a boy of eight; the other two had spent the larger part of their lives in it. Their conclusion was that its days are numbered. The older man, a wholesale dealer of some reputation, at last gave it as his opinion that they would all have to get out of the business by 1920.

IN KANSAS.

According to the figures for 1912 made public by the Kansas state board of control, alcohol was the cause of insanity in only 15 of the 655 patients at the two state hospitals for the insane. This means a percentage of 23 due to alcohol. In 1899 the percentage was 50, in 1911, 54. In New York 31.4 per cent of the insane patients in the state hospitals are there as a result of using alcohol. In Massachusetts the latest statistics available show 30.6 per cent.

New Treatment for Hay Fever, Asthma, Catarrh and Head Colds

Vick's Vapo-Rub Croup and Pneumonia Salve Relieves by Inhalation and Absorption. No Dosing.

When Vick's "Vapo-Rub" Croup and Pneumonia Salve is applied externally, the body warmth releases vapors of Pine Tar, Camphor, Thymol, Menthol, and Eucalyptol. These vapors are inhaled direct to the lungs and air passages where internal medicines cannot go. They loosen the phlegm, open the air passages and stimulate the mucous membrane to throw off the disease germs. For catarrh and head colds melt a little in a spoon and inhale the vapors, also apply well up the nostrils. For asthma and hay fever follow the instructions given above and also rub Vick's

well over the spinal column, thus relaxing the nervous tension. Vick's is not a "cure" for these diseases, but it has at least the merit of containing no harmful habit-forming drugs, and it is sold by all druggists on thirty days trial. If it fails to relieve in your case the purchase price will be immediately refunded.

For sore throat, tonsillitis, deep colds, and bronchial troubles, apply hot wet towels over the chest and throat to open the pores of the skin. Then rub Vick's well in and cover with a warm flannel cloth. The next morning the phlegm is loosened, head is clear and in addition the absorption of Vick's through the skin has taken out that tightness and soreness. At all dealers—25c, 50c, and \$1.00.

REMEMBRALS OF QUALITY

Food prepared from cereal grains supports life and strength better than any other single food product. Wheat bread is the universal food of civilization because the gluten in it furnishes the greatest amount of digestible nutrients.

Aristos Flour is made from Red Turkey Wheat. That means gluten superior in quality and quantity. No imperfect or unseasoned grain—just the single, hard, ripe, wholesome berry. This means Aristos a strong, rich, water-absorbing flour. It yields bread of wonderfully better flavor, better crust, better texture. It makes the loaf that keeps fresh and palatable longest—the one that actually reaches the highest point of food efficiency.

Theaters

Montgomery and Stone.

Montgomery and Stone straight from a year's "run" at the Globe Theater, New York, in a new musical fantasy in three acts, music by Victor Herbert, direction of Charles Dillingham. Sounds pretty good, doesn't it? Especially to judicious theater-goers who have had their money's worth at the principal American theaters in the past five or six years with Montgomery and Stone at the head of their big company playing "The Wizard of Oz," "The Red Mill" or "The Old Town." The names of Montgomery and Stone in star display with a "Dillingham production" have always been sufficient to attract capacity houses in any city theater over whose doors they are displayed.

"The Lady of the Slipper," which is announced to play at the Auditorium theater on Friday night for one performance only is heralded as a musical fantasy in three acts, score by Victor Herbert, book by Anne Caldwell and Lawrence McCarty, lyrics by James O'Dea, staged by R. H. Burnside. All these names mean things to people who are happy when they are led through the gentle paths of tuneful music and pictorial artistry to hearty laughter. The fact that there will be over a hundred people in the company and an amplified orchestra of picked instrumentalists is pleasantly suggestive of the new music show which will be as popular as in other cities as it has proved to be in New York, Chicago and Boston.

Chaplin Stock Co.

The Lenten season has somewhat discouraged the theatrical but the social whirl as well. Even Washington and the White House has discarded the usual brilliance and peace and quiet reigns. In New York, where Pink Teas are held daily at the Plaza, New Vanderbilt, and the Astor, only the voices of the bell-hops and cabbies awaken the day clerk and waiters out of their daily seance. However, each Easter brings forth a new awakening and the winter clothes are discarded for finer lineries, and Broadway again smiles approvingly. The theaters, also, are aware of the radical change, and the best of attractions are billed to appear. So it is with Newark, for Easter week not only brings forth the newest and finest of frocks, but theatrically, it brings some of the better class of attractions and one of them is the Chaplin stock company for the week of April 13th.

The repertoire is made of the Broadway hits and therefore are all high class royalty bills.

Charles C. Chaffe 31, a traveling salesman, shot himself in a hotel at Elyria where he went to see his wife from whom he was separated.

NO CHANGE IN KEITH VAUDEVILLE CIRCUIT

No change will be made in the business policy which has controlled the Keith circuit of vaudeville theatres, because of the death of B. F. Keith at Palm Beach last week. Long before his death, Mr. Keith provided

GOOD SENSE.

HEAVY RAINFALL BRINGS OUT BUDS; SIGNS OF SPRING

Newark and vicinity was visited by the first thunder shower of the spring season, Sunday night, accompanied by an area of unusually low pressure with temperature at 58 degrees at 6:30 Monday morning.

Clouds which overhung during Sunday, permitting only an occasional ray of sunshine to filter through, now show off the assemblage of new spring outfits that appeared on parade, became denser as night fell, and shortly before midnight the rumbling thunder and shower lightning flashes indicated the approach of the season's first thunder shower.

Throughout the greater part of the night rain came down in torrents. Streams were somewhat swollen Monday, but most of the moisture was absorbed by the earth, new tree from frost and ready for the shoots of spring vegetation.

And spring was in the air Monday, too. The first tiny green grass blades were to be seen poking their edges up through the sod, and buds were shedding their winter coats. The buds, particularly on the trees and the early bushes and plant stalks, were noticeably enlarged after Sunday night's drenching rain and warmth, and on many trees the young leaf formations were in evidence.

All signs of the season are in evidence except the spring poet, and he surely will not be behind schedule in making his appearance.

THROW AWAY YOUR EYE-GLASSES!

A Free Prescription

You Can Have Filled and Use at Home.

Do you wear glasses? Are you a victim of eye-strain or other eye-weaknesses? If so, you will be glad to know that there is real hope for you. Many whose eyes were failing, say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it, "I was almost blind; could not see to read at all. Now I can read everything without any glasses, and my eyes do not water any more. At night they would pain dreadfully, now they feel fine all the time. It was like a miracle to me. The lady who used it says, 'The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seemed clear. I can even read fine print without glasses.' It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of eye-strain, glasses, eye-troubles or many descriptions may be wonderfully benefited by following the simple rules here in the prescription. Go to any drug store and get a bottle of Optona. Fill a two ounce bottle with warm water, drop in one Optona tablet and allow to dissolve. With this liquid, bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. Advertisement.

ESTABLISHING CONFIDENCE.

Before the passage of the present strict banking laws in Wisconsin, starting a bank was a comparatively simple proposition. The surprisingly small amount of capital needed is well illustrated by the story of a prosperous countrytown banker told on himself, when asked how he happened to enter the banking business.

"Well," he said, "I didn't have much else to do so I rented an empty store building and painted bank on the window. The first day I was open for business a man came in and deposited a hundred dollars with me, the second day another man dropped in and deposited two hundred and fifty; and so, by George, along about the third day I got confidence enough in the bank to put in a hundred myself." —Everybody's Magazine.

You can take it and be certain you will find it a true blood-maker, tissue-builder, and restorative nerve tonic, and that it will produce no evil after-effect. Thousands—probably many of your own neighbors—are willing to recommend Dr. Pierce's Golden Medical Discovery because it has made them stronger in body, brain and nerve.

You can get Dr. Pierce's Golden Medical Discovery in tablet or liquid form from dealers in medicines—or send 50 one-cent stamps for a trial box of the tablets. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Common Sense Medical Adviser—a great doctor book—a family book of 1008 pages, cloth bound—answers many important questions regarding sickness. Your free copy will be sent on receipt of 31 one-cent stamps to pay wrapping and mailing charges from Dr. Pierce's Invalids' Hotel, Buffalo, New York.

BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD—END CATARRH

Instant Relief When Nose and Head are Clogged from a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes.

Try "Elv's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose will stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Elv's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of

the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Elv's Cream Balm" and your cold or catarrh will surely disappear. F. D. Hall, 10 North Side Square, Newark, Ohio.

IVAN TANNEHILL SECURES A FINE APPOINTMENT

Ivan R. Tannehill of Granville, son of J. B. Tannehill, has just been appointed an assistant observer in the Weather Bureau at Washington, according to announcement from that city Monday. The appointment was made through the efforts of Congressman W. A. Ashbrook of Johnstown.

Mr. Tannehill is well known in Newark where he was several times employed as a news writer by the Advocate during vacation periods. He is a graduate of Denison University and was for two years an instructor in a West Virginia academy. He has more recently been employed in a large printing establishment in Columbus as salesman. He was one of

the editors of the Denisonian during his college career.

He is a young man of splendid qualifications and has been successful in every venture he has tackled. He will make an efficient employee of the weather bureau and much credit is due the congressman in recommending a man of his ability.

Mr. Tannehill's many friends in Newark will be pleased to learn of his new appointment and wish him the success he well deserves.
